

Zingy "Bosco del Jarno"
fam. Roos, Wiesenfelder

Any deletions or additions made will invalidate this certificate

This DNA test detects markers close to the gene responsible for CA - our research has indicated that the test is 95-98% accurate. CLEAR dogs have 2 copies of the normal gene and will neither develop cerebellar ataxia, nor pass a cerebellar ataxia gene to their offspring.

Explanation of terms:

Date: 17 March, 2010

Authentication code: AC6706003
